LIGHTWEIGHT INSULATED PICKING AND STAGING TOTE

Today, grocery store staff collect orders and stage them across refrigerated, frozen and ambient temperature zones waiting for pickup. These methods are inefficient, labor-intensive and expensive. **LIVIRI SHUTTLE⁵³** simplifies the process and allows more flexible options for chilled storage with a high-performance, reusable design that keeps contents in the safe temperature zone for 12+ hours. It also helps eliminate wasteful single-use packaging for a more sustainable last-mile solution.

SQUARE BOX. CIRCULAR MINDSET.

Reuse model is environmentally preferable to single-use alternatives. Constructed from Expanded Polypropylene (EPP) that's 100% recyclable at end of life.

FEATURES

- 12+ hours of thermal performance
- Allows for efficient and flexible use of staging space
- Two lid options: solid and picking lids. Solid lid fits gallon jugs of milk and chilled juice standing upright
- Securely stacks with common ambient totes, allowing for efficient staging of orders for customer pickup
- Fits in most picking carts
- Dry ice compatible to keep ice cream and proteins frozen
- Lightweight, durable design
- Machine washable for easy cleaning and sanitizing

EPP THERMAL DIVIDER

- Create temperature zones (i.e. chilled and frozen) to avoid partially filled boxes and to reduce the number of totes per order
- Allows for dry ice separation
- Divider fits in 6 of the 8 ice-pack slots for customizing box internals

REUSABLE ICE PACKS

- Two temperatures available: 32°F / 0°C and 5°F / -15°C (ideal for ice cream)
- Extremely flexible system accommodates a variety of pack-outs (8 vertical slots and ability to lay 2 ice packs on the bottom)
- Reusable ice packs are sustainable and economical
- Ice Pack: Coolant Weight – 2.5 lbs (1.1 kg)
Total Weight – 3 lbs (1.4 kg)

SHUTTLE⁵³ SPECS

- Weight: 4.0 lbs
- Ice Pack: Coolant Weight – 2.5 lbs
Total Weight – 3 lbs
- Internal Volume: 3,077 in³ (50.42 liters)
- External Dimensions: 23.56" L x 15.75" W x 14.29" H
59.84 cm L x 40.00 cm W x 36.29 cm H
Internal Dimensions: 21.14" L x 12.72" W x 11.59" H
53.16 cm L x 32.30 cm W x 29.43 cm H

NOTE: with the picking lid, internal volume is 42 quarts and a gallon of milk standing up is not accommodated. Internal Dimensions: 21.14" L x 12.72" W x 9.1" H

RUGGED, INSULATED BOX FOR LAST- MILE RESIDENTIAL DELIVERY

LIVIRI SHUTTLE²⁹ works with grocers, specialty food companies and produce shippers to provide durable, insulated totes for last-mile residential delivery. Its high-performance, reusable design reduces the need for chilled storage space or refrigerated trucks. By keeping perishables in the safe temperature zone for 12+ hours, it also allows for unattended deliveries that increase route efficiency by simplifying drop-off logistics. Finally, Liviri Shuttle²⁹ eliminates wasteful single-use packaging, delivering a more sustainable last-mile solution.

SQUARE BOX. CIRCULAR MINDSET.

Reuse model is environmentally preferable to single-use alternatives. Constructed from durable polypropylene.

FEATURES

- Rugged design withstands last-mile delivery rigors for long lasting reliability
- Easy-to-open clips make for simple open/close and convenient consumer experience
- Nestable units reduce storage needs (54 containers per pallet)
- 12+ hours of trusted thermal performance

- Custom ice packs for precise temperature control and flexible pack-out
- Moveable dividers for creating independent climate zones and separating proteins from leafy greens
- Machine washable for quick, consistent cleaning/sanitizing

SHUTTLE²⁹ SPECS

- External dimensions (with lid):
19.3" L x 15.8" W x 10.7" H
49.9 cm L x 40.1 cm W x 27.5 cm H
- Internal dimensions (at base):
15" L x 9.9" W x 9.1" H
38.3 cm L x 25.1 cm W x 23.1 cm H
- Internal volume: 29.4 quarts (27.8 liters)
- Weight: 8.3 lbs (3.8 kg)
- Large ice pack: coolant weight – 3.7 lbs (1.6 kg)
Total weight 4.8 lbs (2.2 kg)
- Small ice pack: coolant weight – 1.1 lbs (.5 kg)
Total weight 1.5 lbs (.69 kg)
