FRESH FORWARD

LIVIRI FRESH is a rugged, reusable container designed for shipping temperature sensitive e-perishables across the small parcel network. It paves the way with a more efficient, streamlined service model that carefully weighs our impacts on the planet. And it prioritizes consumer satisfaction with its waste-reducing convenience and simple return shipping process.

LEADING THERMAL PERFORMANCE

- Otter Products designed, tested and innovated
- VIP (vacuum insulated panels) for aerospace-grade thermal protection
- Internal testing shows box outperforms best-in-class insulated corrugate boxes by >80% in aggressively hot conditions
- Requires less coolant, decreasing internal weight: uses 45% less ice pack coolant and 50% less dry ice than 1.5 in recycled denim insulation
- Use dry ice and keep contents colder 97% longer than 1.5 in recycled denim insulation

TRUSTED DROP PROTECTION

- Withstands abuse, again and again
- Rugged box designed for 2+ years of shipping in the small parcel network
- Exceeds ISTA 3A drop specifications by 2X the required height

SQUARE BOX. CIRCULAR MINDSET.

Reuse model is environmentally preferable to single-use corrugate counterpart. Box and reusable ice packs are constructed of polypropylene and are recyclable at end of life.

FEATURES

- Quick clips for easy access and steadfast security
- Warehouse removable lids for simple storing and cleaning
- Moveable dividers for tailoring box internals and creating independent climate zones for separating proteins from leafy greens
- Machine washable for quick, consistent cleaning
- Nestable units reduce storage needs
